

Contents of *Aquatic Toxicology*, Volume 53

VOL. 53 NO. 1

JUNE 2001

Research articles

G. Le Pennec and M. Le Pennec (France)

Evaluation of the toxicity of chemical compounds using digestive acini of the bivalve mollusc *Pecten maximus* L. maintained alive in vitro 1

E.F. Wirth, S.A. Lund, M.H. Fulton and G.I. Scott (USA)

Determination of acute mortality in adults and sublethal embryo responses of *Palaemonetes pugio* to endosulfan and methoprene exposure 9

G. Frenzilli, M. Nigro, V. Scarcelli, S. Gorbi and F. Regoli (Italy)

DNA integrity and total oxyradical scavenging capacity in the Mediterranean mussel, *Mytilus galloprovincialis*: a field study in a highly eutrophicated coastal lagoon 19

J.R. Seward, G.D. Sinks and T.W. Schultz (USA)

Reproducibility of toxicity across mode of toxic action in the *Tetrahymena* population growth impairment assay 33

J.Y. Wilson, G.M. Kruzynski and R.F. Addison (Canada)

Experimental exposure of juvenile chinook (*Oncorhynchus tshawytscha*) to bleached kraft mill effluent: hepatic CYP1A induction is correlated with DNA adducts but not with organochlorine residues 49

C. Risso-de Faverney, A. Devaux, M. Lafaurie, J.P. Girard, B. Bailly and R. Rahmani (France)

Cadmium induces apoptosis and genotoxicity in rainbow trout hepatocytes through generation of reactive oxygen species 65

Erratum 77

VOL. 53 NO. 2

JULY 2001

Research articles

M. Knops, R. Altenburger and H. Segner (Germany)

Alterations of physiological energetics, growth and reproduction of *Daphnia magna* under toxicant stress 79

Z.C. Dang, M.H.G. Berntssen, A.K. Lundebye, G. Flik, S.E. Wendelaar Bonga and R.A.C. Lock (Netherlands, Norway)

Metallothionein and cortisol receptor expression in gills of Atlantic salmon, *Salmo salar*, exposed to dietary cadmium 91

P. Czech, K. Weber and D.R. Dietrich (Switzerland, Germany)

Effects of endocrine modulating substances on reproduction in the hermaphroditic snail *Lymnaea stagnalis* L 103

- L. Regoli, H.M. Chan, Y. de Lafontaine and I. Mikaelian (Canada)*
Organotins in zebra mussels (*Dreissena polymorpha*) and sediments of the Quebec City Harbour area of the St. Lawrence River 115
- B.H. Toomey, S. Bello, M.E. Hahn, S. Cantrell, P. Wright, D.E. Tillitt and R.T. Di Giulio (USA)*
2,3,7,8-Tetrachlorodibenzo-*p*-dioxin induces apoptotic cell death and cytochrome P4501A expression in developing *Fundulus heteroclitus* embryos 127
- R. Bjerselius, K. Lundstedt-Enkel, H. Olsén, I. Mayer and K. Dimberg (Sweden)*
Male goldfish reproductive behaviour and physiology are severely affected by exogenous exposure to 17 β -estradiol 139

VOL. 53 NOS. 3–4

AUGUST 2001

Special Issue:**Diagnostic Ecotoxicology****Editorial**

- H. Segner, C. Chesné, J.-P. Cravedi, B. Fauconneau, D. Houlihan, F. LeGac, M. Loir, C. Mothersill, P. Pärt, Y. Valotaire and P. Prunet (Germany, France, UK, Ireland, Italy)*
Cellular approaches for diagnostic effects assessment in ecotoxicology: introductory remarks to an EU-funded project 153
- J.P. Cravedi, G. Boudry, M. Baradat, D. Rao and L. Debrauwer (France)*
Metabolic fate of 2,4-dichloroaniline, prochloraz and nonylphenol diethoxylate in rainbow trout: a comparative in vivo/in vitro approach 159
- T. Madigou, P. Le Goff, G. Salbert, J.P. Cravedi, H. Segner, F. Pakdel and Y. Valotaire (France, Germany)*
Effects of nonylphenol on estrogen receptor conformation, transcriptional activity and sexual reversion in rainbow trout (*Oncorhynchus mykiss*) 173
- F. Le Gac, J.L. Thomas, B. Mourot and M. Loir (France)*
In vivo and in vitro effects of prochloraz and nonylphenol ethoxylates on trout spermatogenesis 187
- I. Leguen and P. Prunet (France)*
In vitro effect of various xenobiotics on trout gill cell volume regulation after hypotonic shock 201
- A. Sturm, J.P. Cravedi and H. Segner (Germany, France)*
Prochloraz and nonylphenol diethoxylate inhibit an mdr1-like activity in vitro, but do not alter hepatic levels of P-glycoprotein in trout exposed in vivo 215
- A. Sturm, J.P. Cravedi, E. Perdu, M. Baradat and H. Segner (Germany, France)*
Effects of prochloraz and nonylphenol diethoxylate on hepatic biotransformation enzymes in trout: a comparative in vitro/in vivo-assessment using cultured hepatocytes 229
- B. Fauconneau and G. Paboeuf (France)*
Sensitivity of muscle satellite cells to pollutants: an in vitro and in vivo comparative approach 247
- R.W. Smith, S.C. Blaney, K. Dowling, A. Sturm, M. Jönsson and D.F. Houlihan (UK, Ireland, Germany, Sweden)*
Protein synthesis costs could account for the tissue-specific effects of sub-lethal copper on protein synthesis in rainbow trout (*Oncorhynchus mykiss*) 265

K. Dowling and C. Mothersill (Ireland)

The further development of rainbow trout primary epithelial cell cultures as a diagnostic tool in ecotoxicology risk assessment
